**IDEA-0932-68**  
Copy 7 of 7

**12 December 1968**

**MEMORANDUM FOR: Security Staff/OSA**

**SUBJECT: IDEALIST Clearances**

1. Request the following military personnel assigned to the Physiological Support Division, 100th Strategic Reconnaissance Wing, Davis-Monthan AFB, Arizona, be granted I-3 clearances and briefed accordingly:

Major Chester L. Brown, FR 44476  
Capt. James E. McWilliams, FR 61196

2. Approval of this request would maintain a channel for exchange of information on mutual problems in the U-2R life support area. The present Idealist cleared OIC of life support at Davis-Monthan, Major Mahaffey, is retiring this month and should therefore be debriefed. The two officers named above are the replacement for Major Mahaffey and his new assistant. Contacts between the undersigned and these officers and between Det. G life support personnel and these officers would be made on an occasional versus a frequent basis. Approval of this request would also enable engineers from the ARO Corp. and David Clark Co. who possess Idealist and Senior Year clearances to more freely discuss common problems.
